GENERAL INFORMATION:
APPLICANT: Beasley, Ellen
TITLE OF INVENTION: ISOLATED HUMAN NUCLEAR H
TITLE OF INVENTION: PROTEINS, NUCLEIC ACID
TITLE OF INVENTION: HORMONE RECEPTOR PROTEI
FILE REFERENCE: CLOOI042-PROV
CURRENT APPLICATION NUMBER: US/60/258,273
CURRENT TILING DATE: 2000-12-27
NUMBER OF SEQ ID NOS: 312
SOFTWARRE: FASTSEQ for Windows Version 4.0
SEQ ID NO 211
LENGTH: 1626
TYPE: DNA
ORGANISM: Human

No. is the number of results predicted by chance to have a
re greater than or equal to the score of the result being printed,
is derived by analysis of the total score distribution.

Sequence 173, Application US/10251385
GENERAL INFORMATION:
APPLICANT: Behan, Dominic P.
APPLICANT: Chalmers, Derek T.
APPLICANT: Liaw, Chen W.
TITLE OF INVENTION: Non-Endogenous, Constitution of Invention: Protein Coupled TITLE OF INVENTION: Protein Coupled TITLE OF INVENTION: Receptors
FILE REFERENCE: AREN-0040
CURRENT APPLICATION NUMBER: US/10/251,385
CURRENT FILING DATE: 2002-09-20
PRIOR APPLICATION NUMBER: US/09/170,496
PRIOR APPLICATION VERSION 3.1
SOFTWARE: Patentin version 3.1
SOFTWARE: Patentin version 3.1
TYPE: DNA
ORGANISM: Homo sapiens
                                                                                                                                                                                                                     1091
                                                                                                                                                                                                                                     1404
                                                                                                                                                                                                                                                         1031
                                                                                                                                                                                                                                                                          1344
